## WRITING

### The biggest oak tree

Oh the photo you can see the site within the depths of the forest. In the middle of the picture, there stands a bigger than ~~an~~ <sup>the</sup> average sized oak tree. If you look closely, you might notice a white piece of paper lying near it.

I can't come up with a better explanation, of why is it picture so important to me, than to tell you the story.

It was september the twelve, 2013. I've been ~~administering the books of the "Tihy" forest just as usual~~, wandering around in the "Tihy" forest, just as usual. Suddenly, I've stumbled across a tree, that impressed me, as a kid, with its size. I took a picture of it and noticed a paper lying on the ground. I picked it up, and in the moment after I read what's on it, I felt very uncomfortable. "You're not alone..." It said.

Then I noticed, that it was already dark out here. I stood in horror, as I <sup>he</sup> heard the sticks breaking behind me. Being ready for the worst, ~~preparing to get killed~~ I turned around. It was a beaver.

After that breathtaking moment, I've never ever walked in the forest alone.
